New conclusions of the dissertation

1. Theoretical background and theories application

Self-governance of the community will be effective when cultural heritage is managed by the community itself (the Tien Cong families) who are reknown as the founders, transferers and spread out, popularize those into their lives so that cultural heritage could be protected, preserved and become more lively, upgrading values in social lives. The role theory application into each particular case in the thesis will clarify the role of community self-governance in preservation and promotion cultural heritage of Tien Cong family.

2. Research objectives

The research issue *The role of self - governance of the community in preserving and promoting the cultural heritage of the Tien Cong family in Quang Ninh* that once conducted systematically upto now, even though there have been several research and studies about community and Tien Cong families in Quang Ninh province.

3. Solutions about cultural heritage management

Solutions about promotion of community self-governance in cultural heritage protection of Tien Cong family in relationship with other communities of Tien Cong family and increase the awareness of cultural identity as well as building the background for understanding and respect toward cultural values, also collaborate with creating appropriate regimes, policies that can facilitate social stakeholders, it is rather affirmative that cultural heritage of Tien Cong family will be a unique product in sustainable cultural development in local zone.
