New conclusions of the dissertation

- The dissertation "Management of Public Artistic Units under the Autonomy Mechanism at the Ho Chi Minh City Performance and Cinema Organization Center" makes significant theoretical contributions to the field of cultural and artistic management. Firstly, the dissertation enriches the body of knowledge regarding the management model of public service units towards autonomy.

- It also provides new points for the theoretical study of cultural and artistic management in the context of globalization and the development of the knowledge economy. In addition to its important theoretical contributions, the dissertation has practical value. First and foremost, the research results furnish a comprehensive and realistic picture of the management status at the Ho Chi Minh City Performance and Cinema Organization Center.

- Moreover, the dissertation proposes specific and feasible solutions aimed at improving the operational effectiveness of public artistic units under autonomous conditions. These highly practical proposals serve as guiding principles for the reform of management in public artistic units, with the objective of achieving sustainable autonomy and enhancing competitive capacity.

- In summary, throughout its goals, research questions, methodologies, and specific findings, the dissertation demonstrates novelty, creativity, and practicality. From a multidimensional perspective, it contributes systematically and comprehensively to the development of the arts management field in general and to the model of autonomous public arts management in Vietnam specifically.
